Lewis Tappan,

Oct 9. 1843

96

New York, Oct. 7 '43.

Dr Sir,—

I enclose you a proofsheet of Dr. Lafon's address on missions, requesting you to return it this week with your remarks. No publication will be made of your Criticisms — the object being simply to have the address as perfect as possible. Dr. Lafon left it with me, with the understanding that it might be submitted to a few friends for their examination and remarks. I doubt not you will be willing to oblige the Com[e] in this way. The sooner it is returned the better.

Dr. Lafon is now lecturing in this State.

Respectfully yours
Lewis Tappan
